Division of Environmental Quality
Community Programs
1410 N. Hilton
Boise, ID 83706

SUBJECT: Stationary Low-Power Reactor-1 and Boiling Water Reactor Experiment-I Burial
Grounds (Operable Units 5-05 and 6-01), and Ten No Action Sites Record of
Decision - (OPE-ER-234-95)

Dear Messrs. Pierre and Nygard:

The Department of Energy INEL Manager signed the subject Record of Decision (ROD) on December 12, 1995. The EPA Region 10, Regional Administrator signed the ROD on December 1, 1995, and the appropriate signature pages have been transferred to this office. Upon receipt of signed signature pages from the state of Idaho, final printing and distribution of the document will be made.

Although the Department of Energy has signed the ROD, implementation of the remedial action is contingent upon receipt of adequate funding. This office will coordinate the remedial action activities with your offices to fulfill the requirement for action within 15 months of signature of the ROD. In order to meet the current budgetary constraints, the Remedial Design/Remedial Action Statement of Work will be modified to reflect the bulk of construction activities occurring in FY97.

Sincerely,

A handwritten signature in black ink, appearing to read "Lisa A. Green", is written over the typed name.

Lisa A. Green, Manager
Environmental Restoration Program

Pierre, Nygard
